

Distance Learning Program for Professional Education in Acoustics

Module 4 Environmental Acoustics 2023 Registration Form

Content of Module 4, Acoustics Measurements

This module is aimed at developing the understanding of the requirements necessary to understand the requirements of environmental noise assessments that may be encountered in practice. The four sections cover:

- Section 1 Overview of environmental noise
- Section 2 Industrial noise – *measurement, assessment and control options*
- Section 3 Road Traffic noise– *measurement, assessment and control options*
- Section 4 Aircraft noise – *measurement, assessment and control options*

Timing Module 4, Environmental Acoustics, can be commenced at any time once the Module 1 General Principles of Acoustics has been successfully completed. All material will be sent as password protected files and there is no need to attend any central location at any specified time.

Assessment will be based on the results from assignments.

Registration

Registration includes notes provided electronically, assistance with assignments, and a certificate for successful completion.
